

# Insurance Essentials

## Newly Enhanced: Insurance Essentials Online Course

Now with narration, animated graphics, more interactivity, and easier navigation, Insurance Essentials quickly introduces new employees to basic insurance concepts. Insurance Essentials still offers the same trusted and practical content you've enjoyed in the previous edition, but now with enhanced features. Plus, the entire course is Web-based with no software installation or maintenance required.

### The newly redesigned Insurance Essentials course now offers:

- Fully narrated learning modules.
- Animated graphics that bring charts and diagrams to life.
- Interactivity featuring industry trivia questions and knowledge checks.
- Even simpler point-and-click navigation.

### Plus, Insurance Essentials continues to offer:

- The same trusted, practical Institutes' content.
- The freedom to study modules one at a time over a period of days or all in one session.
- The flexibility to explore the modules in any order.
- The capability to run on an individual computer or on a network.

### We Recommend Insurance Essentials for:

- Employees new to the insurance industry, including professionals in areas such as information systems, human resources, accounting, and other areas not involved in hands-on, day-to-day technical insurance operations.

### Check out the newly enhanced Insurance Essentials course today!
